

Supplementary Table S2. The top 20 articles on nontuberculous mycobacteria with the highest impact factors by researchers based in Korea

Korean author	Corresponding author	Title	Research area	Article type	Study design	Journal	Year	5 Year impact factor
Koh WJ	Kwon OJ	Clinical significance of differentiation of <i>Mycobacterium massiliense</i> from <i>Mycobacterium abscessus</i> ²	Treatment	Clinical	Retrospective study	American Journal of Respiratory and Critical Care Medicine	2011	21.9
Jeon KM	Koh WJ	Antibiotic treatment of <i>Mycobacterium abscessus</i> lung disease: a retrospective analysis of 65 patients ⁴	Treatment	Clinical	Retrospective study	American Journal of Respiratory and Critical Care Medicine	2009	21.9
Choi GE	Koh WJ	Macrolide treatment for <i>Mycobacterium abscessus</i> and <i>Mycobacterium massiliense</i> infection and inducible resistance ¹¹	Treatment	Basic	Genetic study	American Journal of Respiratory and Critical Care Medicine	2012	21.9
Yim JJ	Griffith DE	Amikacin liposome inhalation suspension for treatment-refractory lung disease caused by <i>Mycobacterium avium</i> complex (CONVERT) ¹⁸	Treatment	Clinical	Randomized controlled trial	American Journal of Respiratory and Critical Care Medicine	2018	21.9
Jeong BH	Koh WJ	Intermittent antibiotic therapy for nodular bronchiectatic <i>Mycobacterium avium</i> complex lung disease ¹⁹	Treatment	Clinical	Retrospective cohort	American Journal of Respiratory and Critical Care Medicine	2015	21.9
Koh WJ	Koh WJ	Therapeutic drug monitoring in the treatment of <i>Mycobacterium avium</i> complex lung disease ²¹	Treatment	Clinical	Retrospective cohort study	American Journal of Respiratory and Critical Care Medicine	2012	21.9
Jhun BW	Koh WJ	Development of macrolide resistance and reinfection in refractory <i>Mycobacterium avium</i> complex lung disease ²²	Epidemiology	Clinical	Retrospective cohort	American Journal of Respiratory and Critical Care Medicine	2018	21.9
Kim HJ	Yim JJ	BACES score for predicting mortality in nontuberculous mycobacterial pulmonary disease ²³	Epidemiology	Clinical	Prospective cohort	American Journal of Respiratory and Critical Care Medicine	2021	21.9
Koh WJ	Van Ingen J	The geographic diversity of nontuberculous mycobacteria isolated from pulmonary samples: an NTM-NET collaborative study ¹	Epidemiology	Clinical	Cross-sectional	European Respiratory Journal	2013	20.2
Koh WJ	Koh WJ	Outcomes of <i>Mycobacterium avium</i> complex lung disease based on clinical phenotype ¹³	Epidemiology	Clinical	Retrospective cohort study	European Respiratory Journal	2017	20.2

Supplementary Table S2. Continued

Korean author	Corresponding author	Title	Research area	Article type	Study design	Journal	Year	5 Year impact factor
Hwang JA	Shim TS	Natural history of <i>Mycobacterium avium</i> complex lung disease in untreated patients with stable course ¹⁴	Epidemiology	Clinical	Retrospective cohort study	European Respiratory Journal	2017	20.2
Kwak NK	Yim JJ	<i>Mycobacterium abscessus</i> pulmonary disease: individual patient data meta-analysis ²⁴	Treatment	Secondary research	Systematic review with meta-analysis	European Respiratory Journal	2019	20.2
Jhun BW	Jhun BW	Prognostic factors associated with long-term mortality in 1445 patients with nontuberculous mycobacterial pulmonary disease: a 15-year follow-up study ²⁵	Epidemiology	Clinical	Retrospective cohort study	European Respiratory Journal	2020	20.2
Yoo JW	Shim TS	Mycobacterial diseases developed during anti-tumour necrosis factor- α therapy ²⁶	Epidemiology	Clinical	Retrospective cohort study	European Respiratory Journal	2014	20.2
Ryu YJ	Koh WJ	Impaired expression of Toll-like receptor 2 in nontuberculous mycobacterial lung disease ²⁷	Fundamental research	Basic	Cell study	European Respiratory Journal	2007	20.2
Song JH	Yim JJ	Impact of body mass index on development of nontuberculous mycobacterial pulmonary disease ²⁸	Epidemiology	Clinical	Retrospective cohort study	European Respiratory Journal	2020	20.2
Jhun BW	Namkoong H	Genome-wide association study in patients with pulmonary <i>Mycobacterium avium</i> complex disease ²⁹	Fundamental research	Basic	Genetic study	European Respiratory Journal	2021	20.2
Hur YG	Cho SN	Adjunctive biomarkers for improving diagnosis of tuberculosis and monitoring therapeutic effects ³⁰	Fundamental research	Clinical	Retrospective cohort	Journal of Infection	2015	15.8
Jeong YJ	Lee KS	Nontuberculous mycobacterial pulmonary infection in immunocompetent patients: comparison of thin-section CT and histopathologic findings ¹⁷	Diagnosis	Clinical	Non-comparative study	Radiology	2004	14.1
Koh WJ	Lee KS	Bilateral bronchiectasis and bronchiolitis at thin-section CT: diagnostic implications in nontuberculous mycobacterial pulmonary infection ²⁰	Diagnosis	Clinical	Non-comparative study	Radiology	2005	14.1
